

Sweeper/Vacuum

SELF PROPELLED SWEEPER/VACUUM

**HIGH LIFT
DUMP
HOPPER**

Empty directly into a cart or waste dumpster.

**JOYSTICK
CONTROLS**

Joystick control, tilt steering and wrap-around console add to operator comfort.

**60"
WORKING WIDTH**

Wide-swath coverage means fewer passes.

**RECIRCULATING
TURF
VAC**

The same Recirculating Air System found on our pull-type sweepers.

Tank Capacity	19 Gallon Hydraulic Tank Capacity / 10.9 Gallon Fuel Tank Capacity

The manufacturer reserves the right to make changes in engineering, design and specifications or add improvements at any time without notice or obligation.

Equipped with its own powerful 38 HP Kohler engine and 3.25-cubic-foot hopper, the new TV30 Self-Propelled Sweeper offers maneuverability that simply can't be attained with a tow vehicle and a pull-type unit. Yet, it provides the same Recirculating Air System performance as our towed models.

The TV30 also offers a new level of adaptability, thanks to a line of attachments that includes a standard-equipment 60-inch sweeper brush; an optional rubber-finger attachment for raking tall grass, and a verti-cut option that performs two jobs in one pass. The hopper even lifts to a height of six feet to dump directly into a cart or waste dumpster — avoiding the need to handle material twice.
